He's a cobra man—Hypnotize you with his eyes
He's a cobra man—He will sway you with his lies
If he look at you that way
You ain't never ever gonna wanna look away
From the cobra man

He's a cobra man—He could strike at any time
He's a cobra man—You won't get him out your mind
If he get his eye on you
There ain't nothing you can do
Give it up to the cobra man

He's a cobra man—Make no mistake what's on his mind
He's a cobra man—He's a snake, you know the kind
He will rock you down to sleep so deep
Take what he find. Mr. Cobra Man

You sway me baby
You sway me baby
You sway me baby
You sway me baby
When you look at me that way
What can I say
You sway me

Hey, Mr. Cobra Man—Can I charm you for a time?
Mr. Cobra Man—Look my way, you'll be mine
I got a little basket in my lap
Crawl on in, man. Look at that
You're my cobra man

You sway me baby
You sway me baby
You sway me baby
You sway me baby...
