

Keep Me Warm, Daddy

Music & lyrics © Catya, 2012. All rights reserved. ASCAP.

Born on a dark night in the midst of a storm
Mama didn't make it, but my daddy kept me warm
You can be sure that I learned at his knee
What a man gotta do if he wanna please me...

Gotta keep me warm daddy.

Keep me warm

If you keep me warm daddy, here's what I'll do

I'll show you what I can do for you. I'll show you what I can do for you.

I'll be the cause, be the cure for your blues
Cause I got what you need, what you don't want to lose
Now it don't come easy, it sure don't come fast
But you can keep me warm daddy, if you're up for the task

Keep me warm daddy.

Keep me warm

If you keep me warm daddy, here's what I'll do

I'll show you what I can do for you. I'll show you what I can do for you.

I can be tender. I can be so kind.
But I get a chill when a man cross the line.
Keep me warm daddy, might keep you around
Put a cold hearted man in the cold, cold ground

Keep me warm daddy.

Keep me warm

If you keep me warm daddy, here's what I'll do

I'll show you what I can do for you. I'll show you what I can do for you.

Took out my mama without even trying
What I'll do to you if I catch you lying
Look at another girl, it's a roll of the dice
You gonna make it 'till morning or pay the price

Keep me warm daddy.

Keep me warm

If you keep me warm daddy, here's what I'll do

I'll treat you real nice. I'll bring it home to you. I'll show you...

Born on a dark night in the midst of a storm.
Mama didn't make it, but my daddy kept me warm
