Kiss me like you mean it. Then say good bye
Kiss me. Kiss me like you mean it
Show me the hunger in your eye
And when it's late at night
Won't you think of me sometime....Think of me sometime

Ever since I saw you
The very moment our eyes met
Like a private conversation
Like a kiss you can't forget
The crowd faded. There was no one there but us
And the smile on your lips made me shudder.
Man, you made me blush
So kiss me like you mean it...Lord, let that be enough.

Cause I can almost taste your lips.
I can almost feel your mouth
You can almost take me there
When you're standing just a little too close
My breath starts to rush. That rush run down my spine.
My knees begin to give. Man, you know that I'm inclined
So kiss me like you mean it...Kiss me one time.

Kiss me like you mean it. Then say good bye
Kiss me. Kiss me like you mean it
Show me the hunger in your eye
And when it's late, late at night
Won't you think of me sometime

Now we ain't got the right
We can look but we can't touch
But when it's late at night, I'm all alone
Lord, I want you so damn much.
It's a good thing I'm leaving
There'd be hell to pay
Hell to pay if I stayed.
So kiss me like you mean it
I'll be on my way...On my way.
