

## Penny on a Track

Sitting on a steel rail  
Watching a fast train  
Fly away  
Should have seen it coming  
Switched tracks, started running  
Now I've got to pay

And I feel like a penny on the track  
And the boy who put me here won't be coming back  
He left me flat like a penny on the track  
He left me flat like a penny on the track

Coal black hair  
Steel blue eyes  
Believed his lies  
Bought the line that he sold.  
He left me cold

And I feel like a penny on the track  
And the boy who put me here won't be coming back  
He left me flat like a penny on the track  
He left me flat like a penny on the track

Left me with no goodbye.  
Blindsided  
When he took off, girl, the pain  
Hit me like a freight train

And I feel like a penny on the track  
And the boy who put me here won't be coming back  
He left me flat like a penny on the track  
He left me flat like a penny on the track
