

You Got It

You got it--You give it out
When you got that going on so strong
That delivery
Well you get it? You got me. You got to me

You got me going round round
Got me swinging up down
Oh how you get to me

You got it--You used it
Now I got to get a clue
What I'm gonna do 'bout you
You got me. You get it? You got to me

You got me going round round
Got me swinging up down
Oh how you get to me

I lose it when I see you
I resolve not to have it all
Revolve 'round you
Then I lose it when I see you
I want to laugh, cry, tell you good bye
Tell you come home with me

Got me going round
Got me swinging up down
Oh how you get to me
Oh how you get to me
How you get to me?
